

PRIVATE DEVELOPMENT CONCEPT

Compact Infill House

A repeatable three-storey building concept demonstrating the smaller end of Formara's apartment-development pipeline and its potential for constrained urban plots.

TARGET SIZE	FORM	GROSS TARGET	LIFECYCLE
550-1,200 sqm	**Adaptable**	**18-30%**	**12-24 mo.**

INVESTMENT THESIS

A compact format intended to demonstrate fast, understandable delivery on smaller urban sites. The concept can inform adapted apartment or row-development solutions, subject to local planning and commercial validation.

INCLUDED IN THIS TEASER

- Building concept and headline metrics
- Development strategy summary
- Indicative process and access path
- High-level risk statement

RELEASED AFTER REVIEW

- Land and counterparty negotiations
- Detailed cost plan and procurement terms
- Unit pricing and sales strategy
- Full financial model and legal documents
